ProyTech | MORTGAGE PUNK!

PREPARED FOR MORTGAGE PUNK

The Mortgage Punk Growth System

Most businesses bolt AI on. This is the plan for an AI-first Mortgage Punk.

"Exceptions deserve people. Patterns deserve code." Dan Martell

10 → 30 loans a month

THE GOAL

Prepared for Chris Waipa
Mortgage Punk · Wichita, KS

Prepared by Garrett Von Flue
ProyTech · November 2026

A NOTE BEFORE YOU READ

The band is great. Now it gets a manager.

Chris,

You built a brand most loan officers would kill for: a name people remember, a stage, a show and a message about the American Dream that lands. What holds back the next 20 loans a month isn't the brand. It's everything around it: footage that never gets cut, leads that wait, stages you're not on yet and spending with no scoreboard.

Most businesses bolt AI onto the way they already work and get a few faster emails. We're building the AI-first Mortgage Punk you asked for: AI on every repeatable task, so your time goes back to calls and loans. One Business Suite connected to Jungo shows every loan, lead and dollar. A Chief of Staff you text like a person keeps the work moving. A Media Engine turns what you film into content every day, and a Bookings team gets you on stages and shows. Every agent drafts the work, then waits for your OK.

Your first agents go live in about three weeks. Everything is built in about two months, and you pay for it over twelve.

The plan in plain words 17

SHORT ON TIME?

Page 5 is the plan. Page 14 is the price. No prices show up anywhere before page 13.

WHERE MORTGAGE PUNK STANDS

A national brand running on disconnected tools.

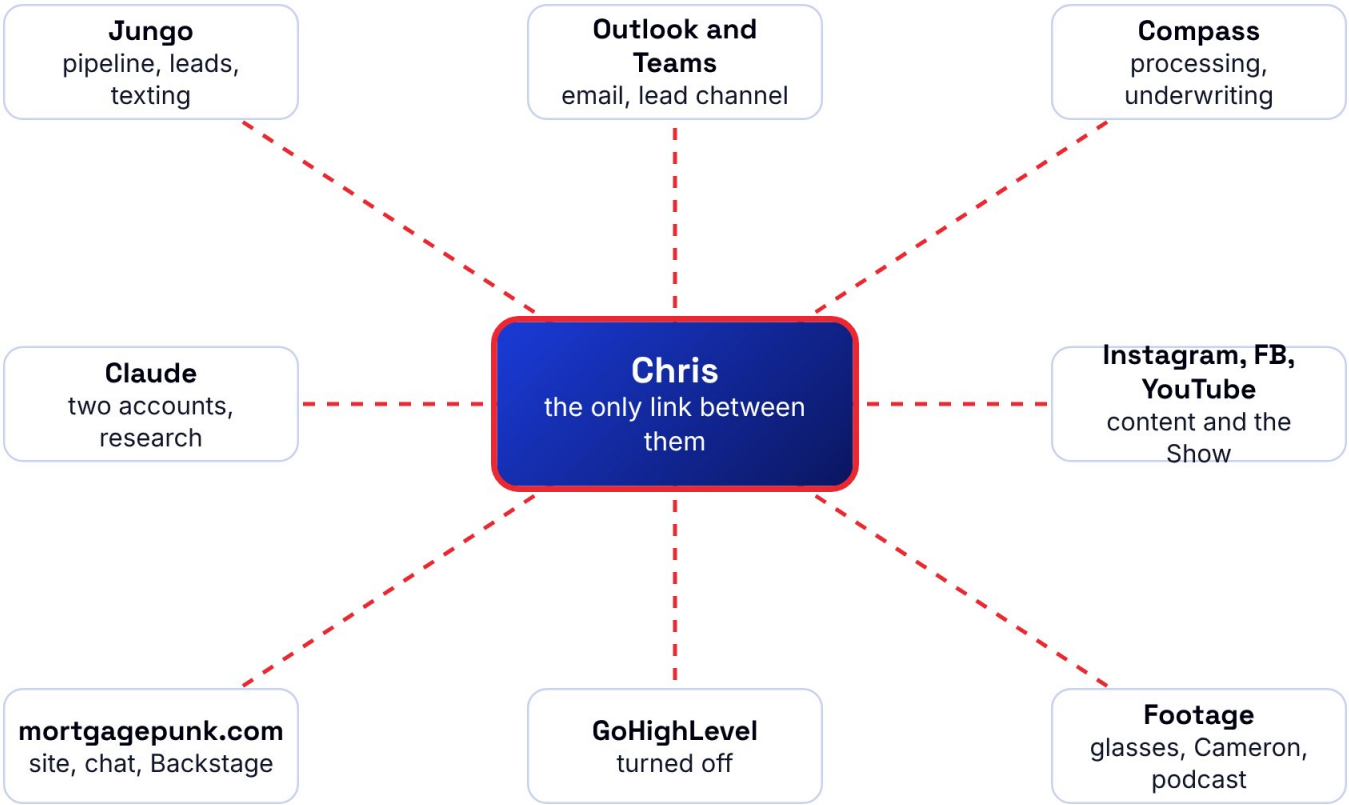

Mortgage Punk already has the name, the stage and the story. The gap is in how work moves between people, platforms and Chris.

~10	18	30	1 yr+
Loans a month on average	Closings on track this month	Loans a month, the goal	Of long-form footage, mostly unused

FOUR CONTENT PILLARS — Authority · Mortgage 101 · Community · Proof

Today: eight tools, no shared record

Every dashed line is a hand-off done by copy, paste or memory.

THE LEAKS

Mortgage Punk doesn't need a bigger budget. It needs to stop leaking the attention it already earns.

21×
more likely to convert a lead reached in 5 minutes than one reached at 30
Insellerate, via Structurely

75%
of purchase borrowers rank a lender's reputation first
Federal survey, via HousingWire

#1
YouTube is the most-used podcast platform in the US
Edison Research, Q3 2026

2.5×
one loan officer's production growth, $20M to $50M, from consistent content
Inman, 2026

	THE LEAK, AND WHAT IT COSTS	FIXED BY
01	**Leads trickle in** Consumer-direct leads arrive in sprinkles, from the downtown sign and ChatGPT searches.	Content Engine + Lead Responder
02	**First replies take up to 30 minutes** GoHighLevel is off and new leads wait in a Teams channel.	Lead Responder
03	**Content nobody stays for** No hooks, a different topic every post, viewers gone in the first seconds.	Content Engine
04	**A year of footage sits unused** Podcast, conference and Backstage Pass video with no system to cut it.	Content Engine
05	**Stages only when he hosts** No pipeline of conferences, realtor rooms or podcasts asking for Chris.	Bookings
06	**Sponsors with no numbers** Sponsors are asking for YouTube metrics, and the conference needs bigger checks.	Sponsor reports
07	**Five years of spending, no scoreboard** Brand dollars went out with no way to see which ones produced loans.	Business Suite
08	**Everything runs through Chris** Notes and files leave with people, and 80-hour weeks hold it together.	Chief of Staff + team knowledge

HOW 10 BECOMES 30

Tripling won't come from one viral video. It comes from a brand that works every day.

Today the brand earns attention and the business loses it in the gaps. We rebuild the business so every bit of attention moves around this loop, and every closing feeds the next clip.

1 Get seen

MEDIA ENGINE

Clips every day from footage you already have, plus stages and podcasts where his next clients sit.

More people know Chris

2 Get trusted

PROOF

Consistent content, sponsor numbers, reviews and clear DSCR answers in Google and ChatGPT.

More of them reach out

3 Get answered

FOUNDATION

Every lead texted back in minutes, ranked, followed up and synced to Jungo. Nobody waits or slips.

More of them apply

4 Get referred

CHIEF OF STAFF

Files keep moving, every closing gets a thank-you, a review ask and one introduction.

More of them close and refer

ALL THROUGH
The Business Suite

The math, in plain words: to go from 10 loans to 30, three things grow at once. More people see Chris, more of them reach out, and more of those close and send a friend. Each system on this page moves one of them, and the Suite tracks all of it.

Investor lending is growing your way

Non-QM mortgage originations, where DSCR and investor loans are about half (National Mortgage Professional)

THE GROWTH MAP

One nucleus. Eight systems around it.

PAIN what hurts today **FIX** what we build **Moves** the number it grows

Front Door

PAIN Leads arrive by accident, from a sign and ChatGPT

FIX Website Concierge books the right call, DSCR answers

Moves: leads

Speed to Lead

PAIN Up to 30 minutes before anyone replies

FIX Text back in 2 minutes, ranked and synced to Jungo

Moves: applications

Content Engine

PAIN No hooks, and a year of footage unused

FIX A ten-role media team that cuts, hooks and plans every week

Moves: reach

Command Center

PAIN No single view of loans, leads and spend

FIX Chief of Staff daily brief and a weekly scorecard to 30

Moves: speed of decisions

THE NUCLEUS

Mortgage Punk Business Suite

One place for loans, leads, content, sponsors and money. Every agent works here; nothing goes out without Chris's OK.

Stages and Podcasts

PAIN Speaking only happens on his own stage

FIX Bookings agent, speaker kit, two guest spots a month

Moves: authority

Sponsors and Events

PAIN Sponsors ask for numbers nobody can pull

FIX Monthly sponsor reports, conference promotion

Moves: event funding

Realtor Partners

PAIN Cold outreach gets one reply in 30

FIX Warm intros asked and tracked after every closing

Moves: referrals

Team Knowledge

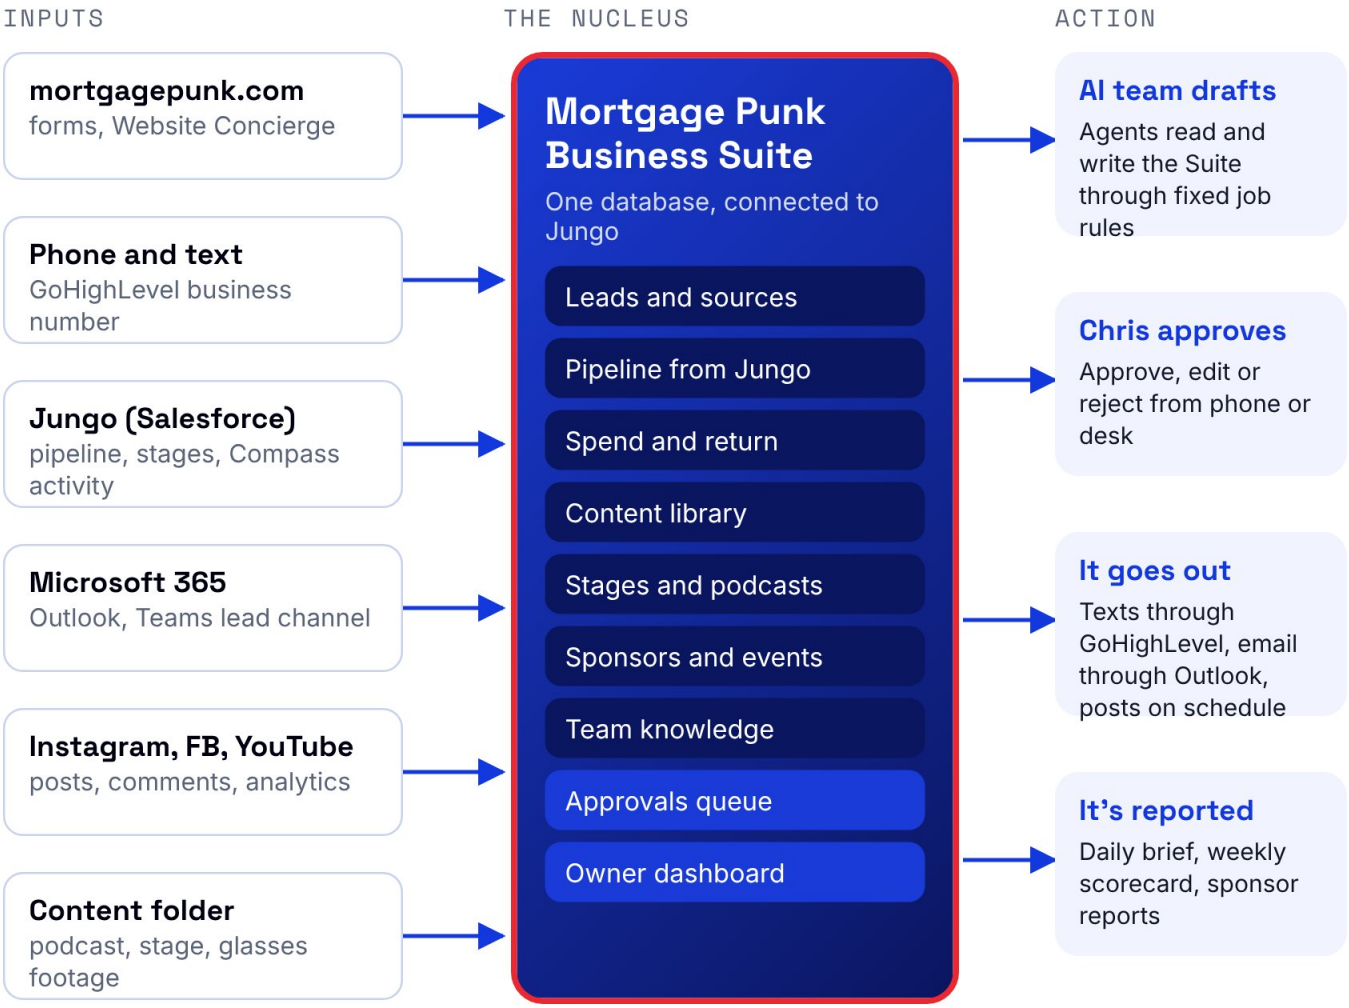

PAIN Notes and files leave with people

FIX Shared vault, leaving checklist, Ask Mortgage Punk

Moves: hours saved

HOW THE SYSTEM CONNECTS

Your tools stay. They finally talk to each other.

Security and ownership, built in

Roles and permissions
The team sees its own work; money and margins stay owner-only.

Compliance built in
NMLS ID on every clip, rate and payment wording flagged for review, every post archived.

Backups and monitoring
Nightly backups, uptime checks and alerts if a sync fails.

Your data is yours
Leads, content, reviews and domain export any time.

Jungo connects read only first, then two-way once Neighborhood Loans approves the connection.

A LEAD'S JOURNEY

From a 30-second clip to a closed loan, nothing waits on memory.

AI agent | Chris or team | Business Suite

1	**Sees a clip** · a hook that stops the scroll, on brand and on schedule	Content Engine
2	**Looks Chris up** · mortgagepunk.com, Google or ChatGPT	DSCR answers + site
3	**Raises a hand** · Website Concierge, form, call or text	Website Concierge
4	**Texted back in under 2 minutes** · logged, ranked, team alerted	Lead Responder
5	**Synced to Jungo** · source and score carried into the pipeline	Business Suite
6	**The call** · with the lead's story in hand	Chris or team
7	**Application and updates** · your existing Jungo automation	Your Jungo setup
8	**Closed** · credited to the source that brought them in	Business Suite
9	**Thank-you and review ask** · happy clients become proof	Chris or team
10	**One introduction asked** · from the client and the realtor	Chief of Staff

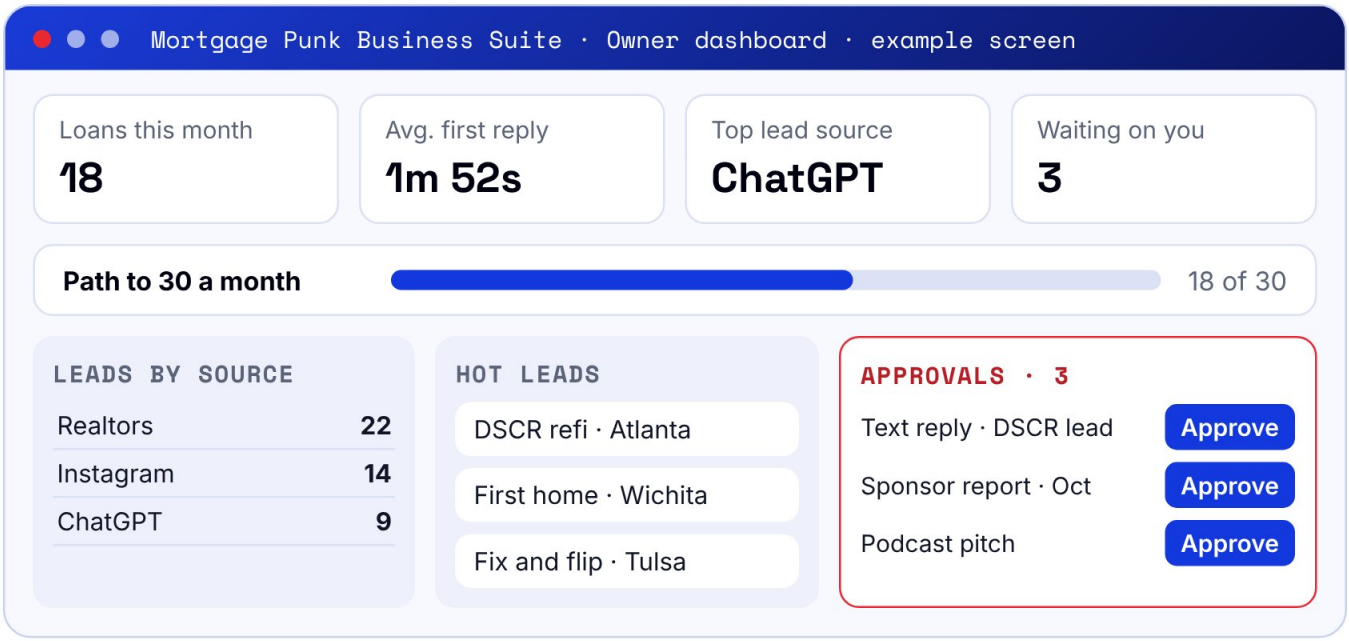

Red loop: every closing becomes a story the Content Engine tells, so reach compounds.

PART 1 · THE FOUNDATION

One place to see every loan, lead and dollar.

A Business Suite connected to Jungo. Every agent works inside it, every draft waits in one approvals queue, and a scoreboard finally shows what your spending produces.

In this part: The Business Suite · Website Concierge · Lead Responder · Chief of Staff

What it fixes

- Years of spending with no scoreboard
- Leads split across Jungo, Teams and inboxes
- Files that leave when people leave
- No single view of the path to 30

What's inside

- Jungo, read first, then two-way
- Every lead source and what it produced
- Content, stages, sponsors and events
- Footage moved from Dropbox to Google Drive

HOW WE START · WEEK 1

Logins
one sitting

▸

Files
footage moves to Google Drive

▸

Task audit
every recurring task, by person

▸

A live event
glasses on, Cameron filming

▸

Workforce map
AI or a person, task by task

PART 1 · THE FOUNDATION · PRESENTED BY LOGAN

Three agents that never sleep, never forget and never send without your OK.

21 days **Your 3-week pilot.** The Website Concierge and Lead Responder go live first. We measure first-reply time and booked calls, so you see it working before anything else gets built.

PILOT

Website Concierge

WHEN someone visits mortgagepunk.com or the conference site

DOES answers questions, books the right Calendly page, sends the lead into Jungo, and hands off to Angelica or you

FIXES visitors who leave with questions, and calls booked on the wrong page

PILOT

Lead Responder

WHEN a lead comes in from a form, a call, a text, Facebook or Instagram

DOES texts back in under 2 minutes, ranks it hot, warm or cold, syncs it to Jungo and alerts the team in Teams

FIXES leads waiting up to 30 minutes

Chief of Staff

WHEN every morning, and any time you text it

DOES sends your morning brief and weekly Greatness Tracker, hands each job to the right agent and brings the result back. It's the only agent you talk to.

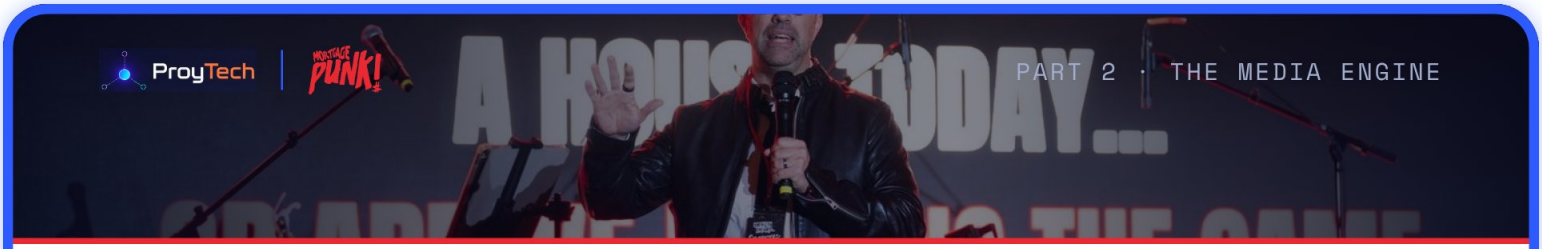

FIXES everything running through Chris

A DSCR lead on a Tuesday night

9:14 PM	An Atlanta investor asks the Website Concierge about a DSCR refi. It answers, ranks the lead hot and books the right call.
9:15 PM	The Lead Responder's follow-up text lands in your approvals queue.
9:16 PM	You approve from your phone. Answered and booked in two minutes.
7:30 AM	The investor is at the top of your morning brief.

Guardrails

- Drafts only, until you turn on auto-send
- Each agent touches only its own job
- NMLS ID and approved wording
- No borrower files in AI tools outside approved systems
- Every action logged, any agent can be paused

PART 2 · THE MEDIA ENGINE · PRESENTED BY LOGAN

A ten-agent media team that turns what you already film into content every day.

This is where most of the value lives. Every Mortgage Punk Show episode becomes clips, YouTube titles and descriptions, and a blog post that Google can find. You keep filming; the team waits for your OK.

In this part: The Content Engine | Bookings | Sponsor reports | Ask Mortgage Punk

1 Research

Researcher
finds what's working for mortgage, investor and money creators this week

Librarian
transcribes and tags every long-form video you've filmed

2 Clip

Clip editor
cuts the strongest 20 to 60 seconds

Hook writer
writes 3 to 5 openings for every clip

3 Draft

Writer
captions, YouTube titles and a blog post per episode

Graphics
thumbnails and covers

4 Batch

Scheduler
plans the week across four pillars, Google included

Compliance checker
NMLS ID on every clip, rate wording flagged

5 Learn

Numbers analyst
watch time and follows shape next week's plan

Comment and DM drafts
first-hour replies, ready for the team

Numbers feed back into research every week. Nothing posts without a person.

What it fixes

- No hooks, so viewers leave in seconds
- A year of footage sitting unused
- Show episodes that never reach search
- No time to post, and no idea what's working

What Chris does

- Records hooks a few hours a month
- Glasses on at events while Cameron films
- Elise approves a daily batch
- SEO lined up with Antoniya, so nothing overlaps

PART 2 · THE MEDIA ENGINE

Get Chris on the stages and shows where his next clients already sit.

THE STAGE LADDER

NOW

Realtor boards and brokerages in Wichita, Tulsa, Kansas City, OKC and Dallas. Real Producers, investor clubs, chambers.

NEXT

State REALTOR conventions, CRS and investor conferences, BiggerPockets meetups.

REACH

NAR NXT 2027 in San Diego, with the proposal in by the January deadline. BPCON. Paid keynotes once the reel proves demand.

Stage agent

WHEN a weekly scan, plus every call-for-speakers deadline

DOES finds rooms that fit your talk, drafts the proposal and follow-ups, writes a prep brief, and asks for a referral after each gig

FIXES speaking only on your own stage

Podcast agent

WHEN every week

DOES finds real estate, investor, money and music shows, drafts pitches, books guest spots and sends each episode to the Content Engine

FIXES talking to the same audience every week

SPEAKER KIT

"The American Dream didn't fail. The explanation did."

A short reel cut from conference footage, a one-sheet and a speaker page on mortgagepunk.com.

SPONSOR REPORTS

Proof sponsors renew on

Each sponsor gets a monthly report: show views, social reach, attendance and the leads they touched.

ASK MORTGAGE PUNK

Your team asks it, not you

Answers from your playbook, processes and brand rules. It never sees borrower files.

PART 3 · YOUR INVESTMENT

All of it, built in about two months.

THE FOUNDATION

- ✓ Onboarding, AI workforce map
- ✓ Business Suite + Jungo
- ✓ Security review
- ✓ Website Concierge
- ✓ Lead Responder
- ✓ Chief of Staff
- ✓ Speaker kit, NAR NXT
- ✓ Week-1 fixes: Calendly, email

THE MEDIA ENGINE

- ✓ Content Engine, 10 agents
- ✓ Stage and podcast agents
- ✓ Monthly sponsor reports
- ✓ Ask Mortgage Punk

RUNNING FOR 12 MONTHS

- ✓ Hosting, backups, monitoring
- ✓ AI usage for every agent
- ✓ Website care, mortgagepunk.com
- ✓ Support and a monthly demo

16 AI AGENTS

$3,000 to $10,000

is what we normally charge per agent. That's $48,000 or more for the agents alone.

YOUR PRICE

$45,000

For everything on this page, or $42,000 flat. Paid over 12 months.

Less than one hire

Social media manager	~$74,000/yr
Admin assistant	$48,310/yr

BuiltIn via Sprout Social, 2026 · BLS, 2025

The build: 8 weeks

Everything is built in the first two months, assuming logins and files arrive in week 1. The payments are spread over twelve because we believe in what you're building.

PART 3 · THREE WAYS TO PAY

One plan. Pick how you pay for it.

Same build, same two-month timeline, everything running for 12 months. Only the payments change.

OPTION 1

Steady

$45,000

Month 1	$3,000
Months 4, 8 and 12	$8,000
Every other month	$2,250

A steady monthly with three mid-size payments.

OPTION 2

Low monthly

$45,000

Month 1	$3,000
Months 4, 8 and 12	$10,000
Every other month	$1,500

The lowest monthly, with three larger payments.

OPTION 3

Flat

$42,000

Every month, 1 to 12	$3,500
Larger payments	None

One number every month, and the lowest total.

After month 12

$1,000 a month plus AI usage keeps every agent, the Suite and the website running.

Partner credits

Every client you send us who signs and pays a first invoice of $3,000 or more takes $1,000 off your next payment.

Partner terms. In return for partner pricing: a monthly 60-second video on what changed (with a line saying ProyTech gives you a partner rate), 10 minutes on the main stage at the American Dream Conference, and introductions to the loan officers, business owners and realtors in your network.

Next steps

1. **Pick an option**
2. **Sign, first payment by ACH**
3. **Pilot live in 21 days**
4. **Everything live by week 8**

Payments by ACH through Mercury. Anything outside this scope is quoted in writing first. Proposal valid 14 days.

EVERYTHING WE'LL BUILD

Your whole business, built and connected.

The Business Suite — 12 SCREENS

- ✓ Owner dashboard
- ✓ Loan pipeline
- ✓ Greatness Tracker
- ✓ Stages and podcasts
- ✓ Realtor partners
- ✓ Team and vault
- ✓ Leads
- ✓ Spend and return
- ✓ Content
- ✓ Events and sponsors
- ✓ Past clients
- ✓ Approvals and log

- ✓ Comment-to-DM keywords
- ✓ Realtor thank-you, intro ask
- ✓ Conference sign-up reminders
- ✓ Weekly Greatness Tracker
- ✓ Morning brief and scorecard

Want the rooms full too?
8 more agents for your events.

NEXT PAGE ▸

Don't cancel Dropbox yet.
We move your footage to Google Drive and check every file with you first.

ADD-ON · THE EVENT PROMOTER TEAM

Eight agents that fill the American Dream Conference and every Backstage Pass.

They run each event from the first announcement to the sponsor report, so the room fills and sponsors renew without you pushing tickets yourself.

1
Campaign Planner
Works back from the event date and builds the announce, early-bird and last-call calendar.

2
Sponsor Hunter
Finds and pitches sponsors for each event and tracks what every sponsor was promised.

3
Ticket Promoter
Drafts posts, emails and texts to people who opted in, using clips from past events.

4
Past Attendee Re-invite
Brings past attendees and warm leads back, and offers VIP upgrades.

5
Partner Kit
Ready-to-post promo for sponsors, speakers and realtors, each with a tracking link.

6
Sign-up Tracker
Counts sign-ups against the goal daily and alerts the Chief of Staff if pace slips.

7
Event Day Concierge
Reminder texts, directions and answers to attendee questions on event day.

8
Post-Event Recap
Survey, testimonials with consent, sponsor reports within days, and the next date.

HOW AN EVENT RUNS

8 weeks out — Plan, sponsors, partner kits ▸ **4 weeks out** — Ticket pushes and re-invites ▸ **Final week** — Last call and reminders ▸ **Event day** — Check-ins and questions ▸ **After** — Recap, reports, next date

ADD TO ANY PLAN

Eight agents at our normal $3,000 to $10,000 each would be $24,000 or more. Pay it up front, or we split it across your payments however works for you.

$10,000
for all eight

Texts and emails go only to people who opted in. Every message waits for your OK.

THE PLAN IN PLAIN WORDS

Everything in this book, on one page.

Written so Chris, his team or his AI assistant can check exactly what ProyTech will build, when, and what it costs.

The goal

Grow Mortgage Punk from about 10 loans a month to 30 by rebuilding how the business runs around AI: one Business Suite connected to Jungo, plus AI agents that draft the work and wait for Chris's approval. Progress toward 30 is tracked every week. Loan numbers are the goal, not a promise, and nothing is ever billed against them.

What ProyTech builds

- **Business Suite:** 12 screens for loans, leads, spend and return, the Greatness Tracker, content, stages and podcasts, events and sponsors, realtor partners, past clients, team, and approvals. Connected to Jungo, GoHighLevel, Calendly, Outlook, Teams, mortgagepunk.com, mortgagepunklive.com, Instagram, Facebook, YouTube, Google Drive and Google Business Profile.
- **16 AI agents:** Website Concierge, Lead Responder and Chief of Staff; a 10-agent Content Engine (researcher, librarian, clip editor, hook writer, writer, graphics, scheduler, compliance checker, numbers analyst, comment and DM drafts); a stage agent and a podcast agent; and Ask Mortgage Punk for the team.
- **23 automations,** including missed call text back, instant replies to new leads, Calendly routing, Jungo sync, review and referral asks after each closing, Backstage Pass panelist tracking, the thank-you card list and the weekly Greatness Tracker.
- **Also included:** onboarding and an AI workforce map, a security review, the speaker kit and NAR NXT proposal, monthly sponsor reports, and moving the footage library from Dropbox to Google Drive.

Timeline

The pilot (Website Concierge and Lead Responder) goes live in about 21 days. The Foundation is live by week 4 and everything is live by week 8, assuming logins and files arrive in week 1.

Price

One plan for 12 months, with three ways to pay:

- **Steady, $45,000:** $3,000 in month 1, $8,000 in months 4, 8 and 12, and $2,250 in every other month.
- **Low monthly, $45,000:** $3,000 in month 1, $10,000 in months 4, 8 and 12, and $1,500 in every other month.
- **Flat, $42,000:** $3,500 every month.

Included for the 12 months: hosting, backups, monitoring, AI usage, website care for mortgagepunk.com, support and a monthly demo. From month 13: $1,000 a month plus AI usage. Optional: the Event Promoter team of 8 agents for $10,000, paid up front or split across payments. ProyTech normally charges $3,000 to $10,000 per agent.

Guardrails

Agents draft and wait for approval until Chris turns on auto-send for a specific task. Texts go only to people who reached out or opted in. Every post carries the NMLS ID and approved wording, and Neighborhood Loans compliance reviews what agents send. No borrower files go into AI tools outside approved systems. Every action is logged and any agent can be paused. Chris owns his data, content and domains and can export them any time.

What Mortgage Punk provides

Logins in week 1, the footage folder, Elise's workflows, 12 to 24 months of marketing spend, a compliance contact, one point person, and feedback within 5 business days. Dropbox stays on until the footage transfer is confirmed.

How progress is measured

First-reply time, booked calls, posts published, stages and podcasts booked, sponsor reports sent, and loans by source, all on the weekly scorecard.

Not included

Loan status texts after pre-approval, a realtor partner outreach agent, a DSCR and AI search hub, and personal video follow-up. Anything outside this scope is quoted in writing first.
