ProyTech | THUNDER SUITE NIGHT

WIN A $2,000 AI AGENT

BUILT FOR YOUR BUSINESS

Drop your entry in the box. One business owner walks away with a real AI agent, built free. Here is what that actually means.

IT IS NOT A CHATBOT

A chatbot answers questions. An agent does the work. You give it a rule set and it follows that rule set 24/7 without getting tired, distracted, or quitting.

WHAT IT ACTUALLY DOES

Texts back every missed call. Books appointments while you are on the job. Follows up with every lead. Finds new customers. Writes and posts your content.

WHY OURS ARE DIFFERENT

You have seen the AI agents. bolted onto websites that answer a question and hope. Ours are wired into your business to actually do the work. The difference between a receptionist who takes a message and one who books the job.

AGENTS WE HAVE BUILT

A lead finding agent wired into a client CRM. A 24/7 front desk that answers and books. A content agent that writes and schedules posts. An in-app assistant named JARVIS.

We build custom agents from $2,000 to $10,000 | **Tonight, one person gets one free.**

ENTER TO WIN

1. Grab a slip or scan the code.
2. Tell us the one task you would hand an agent.
3. Drop it in the box.
